

CLEAN OFF

Clean Off is an organic, non-flammable, all purpose cleaner and degreaser. This product is designed to be safer for the environment and uses technology based on terpenes that are naturally occurring solvents. **Clean Off** was designed to replace petroleum cleaning solvents and degreasers. Can be used to degrease molds, dies, and other industrial equipment. **Clean Off** effectively emulsifies tar and asphalt from vehicles and construction equipment. Will remove rubber tire marks.

FEATURES & BENEFITS

- **ENVIRONMENTALLY FRIENDLY**
Technology based on biodegradable and naturally occurring solvents
- **PLEASANT ODOR**
Leaves a fresh citrus odor
- **VERSATILE**
Removes ink, grease, gum, glue, tar and asphalt
- **POWERFUL CLEANING ACTION**
Cuts grease and similar soils better than most petroleum based solvents

DIRECTIONS

Concrete and Shop Floors: Depending on amount of soil, apply undiluted product or diluted with water up to 1:20 to soiled area. Scrub as necessary with brush or floor machine. Rinse thoroughly. Pick up with a mop and wringer or wet pick-up vacuum.

Greasy Equipment and Parts: Brush, wipe or spray undiluted product onto soiled areas, agitate as necessary. Rinse thoroughly with water, preferably high pressure or steam.

Rubber Marks, Tar and Asphalt: Wipe or spray undiluted product onto asphalt or tar spots. Scrub as necessary. Rinse thoroughly with water.

Printing Industry: See your Ver-tech Labs sales representative for application instructions.

NOTE: Clean Off may damage plastic, rubber, and/or painted surfaces. Test on an inconspicuous area before general use.

NOTE: See reverse side for MSDS information and General Cautions for Use
