WHEEL BLASTER

Ultra Concentrated Wheel Wash

The latest touchless technology aimed at total road film removal, combined with a unique method of super concentrating heavy duty alkaline heavy detergents have produced an ultra concentrated high performance on-line wheel and tire cleaner.

FEATURES & BENEFITS

- Cleans and brightens metallic and coated wheels with the efficiency of acid wheel brighteners
- Non-Acid! Contains no hydrofluoric acid, ammonium bifluoride or fluorides
- Cleans tires
- Cleans and whitens raised letters and white walls
- Applicable to wheel washers and tire brush units
- Single product eliminates the common use of dual injectors for two product systems
- Stable in hard water up to 40 grains
- Reclaim compatible

APPLICATION

Tire Brushes and Wheel Washers

Recommended dilution 1:17 (red) to 1:48 (green) 2.5 to 8 oz/gal

Range dependent on detergent temperature, line speed, exposure time and pressure
